Shrimp fishing vessel TALA 21 – Agadir, Morocco

The **ZINGA** Distributor of Morocco, **CHIMIPLEX Sarl** (Casablanca), obtained the order from the owner **WAFASAMAK**, branch of the **SOREMAR Group**, for protecting a new 27m long shrimp fishing vessel with **ZINGA** systems.

The works were executed in the **SOREMAR** Shipyard in Agadir.

The works started end of 2024 and were delivered early 2025.

The **SOREMAR Group** owns 3 shipyards for building fishing vessels, and thanks to the success of this **TALA 21 Project**, discussions have started for the maintenance of other vessels in Morocco, Mauretania and Senegal.
